

# SLOPE MINI-PROJECT

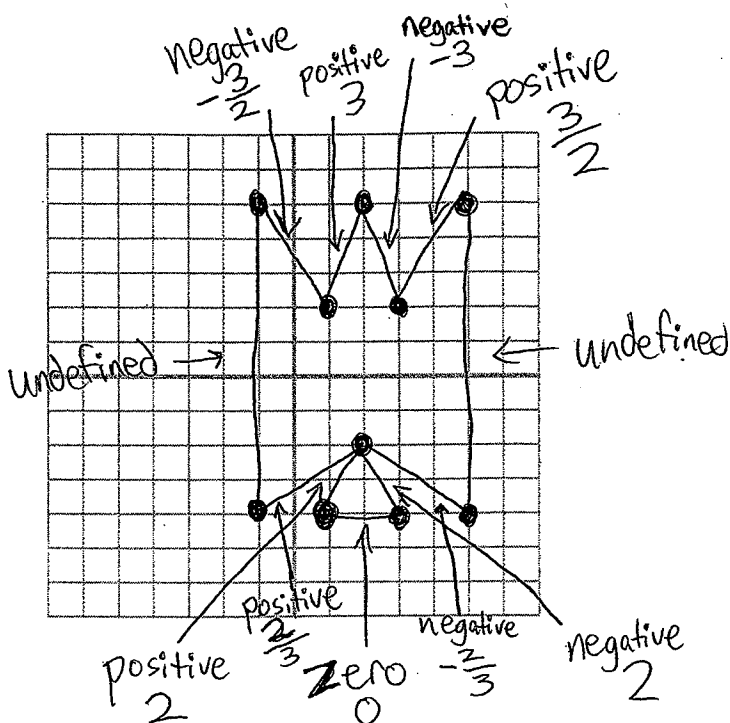

Algebra I, Mr. D

NAME:

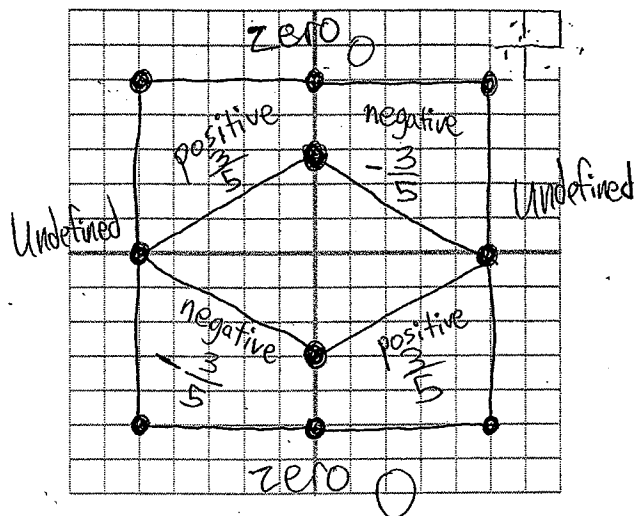

Thursday, December 04, 2008

Directions: Create any picture you want using a **minimum of 10 points**. You may use only straight lines! Find the **slope** of each line label each one as positive, negative, zero, or undefined slope.

## EXAMPLE 1

## EXAMPLE 2

You only have to make 1 picture. I gave you 2 graphs in case you need to redo it.
